#### Ecotap Technology:

Unique flow adjustment technology ensures comfortable bathing experience and energy saving.

#### Water Saving Technology:

The selection of Swiss Neoperl quality water-saving aerator enables water clean and soft, and effectively save up to 30% water.

#### Air Mix Technology:

Over 2L air is absorbed every minute to mix with water fully so as to offer you the soft and rhythmical bathing experience.

#### Mirror-sided Plating Technology:

The mirror-sided plating technology that we are proud of makes our products even more extraordinary.

## Basin Mixer
