Air Mix Technology

Bravat's unique Air Mix Technology ensures that each drop of water is mixed with air creating an invigorating experience for the user. Air Mix Technology is not only extremely quiet, but also assists with water heating and water efficiency.

200H Salt Spray Test

Bravat products exceed the most stringent of testing and international standards. The 200 H salt spray test is a standardized test used to measure corrosion resistance. Bravat's innovative sliding technology has been proven to guard against corrosion with the ability to withstand 200 hours of rigorous salt spray testing without showing any visible signs of wear and tear.

Lifetime Warranty

Bravat uses only the highest quality materials for their faucets. Bravat cartridges are leak-proof and durable, ensuring the most rigorous testing of up to 800,000 cycles with no visible wear and tear. This ensures a lifetime of maintenance free operation and peace of mind with Bravat's unique lifetime cartridge replacement warranty.
